

STD Express A

Pitt County Health Department
September 29, 2011
STD Update Conference

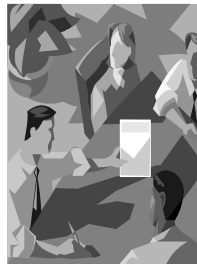

Getting Started

- **Why**- To increase the available STD screening appointments- **DEMAND**.
- **What**- PCSI opportunity to try something new- self screening for GC/CT.
- **Where** - Clinic space accessible to clients.
- **Who** - Asymptomatic clients and rescreens.
- **How** - Self collected urine, vaginal, rectal specimens.

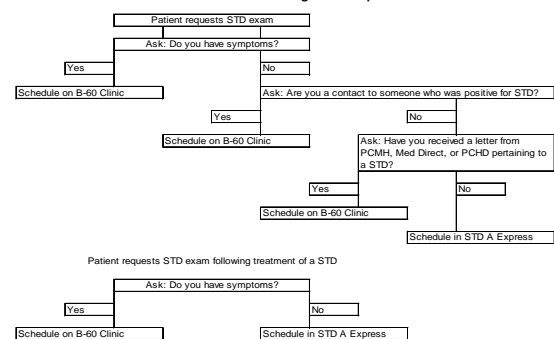

Communicating to staff

- An algorithm was developed to assist staff with questions to determine which clinic would best suit the clients needs.
- Staff training was provided to CD Team staff, lab staff, business office staff and clerical support.

Process for Scheduling STD A Express

Conducting Service

- 8 appointments a day on Monday, Tuesday and Friday.
- Take a number system
- STD Self Assessment
- Specimen collection
- Lab services
- Visits take about 15-20 minutes

Monitoring our progress

- **Process indicators:**
 - Indicator: # of staff trainings conducted.
 - Indicator: % of needed equipment secured.

Monitoring our progress

• **Output indicators:**

- # of staff trained.
- # of appts provided each week.
- # of clients attending.
- % of show rate
- % of clients that could not be seen as fast tracks.

Monitoring our progress – cont.

• **Outcome Indicators:**

- # of clients seen as fast tracks.
- # of screening tests performed.
- % with positive results for each test.
- % of clients with positive results treated.
- # or % clients – Hepatitis C

Results so far July 2011

- 93% show rate
- 2 out of 16 Chlamydia were positive – 12.5%
- 2 out of 57 Hep C -3.5%
- 4 Positive QTFs
- 12 Negative QTFs

Future Goals

- Focus on recruitment for rescreens from STD and FP Clinics.
- Work with Health Education staff in marketing Express A services.
- Expand the number of services provided as community responds to the availability of this service.
