INH resistance: The TB bacteria are resistant to isoniazid (INH) rendering INH no longer effective for treatment. INH resistance may include resistance to additional drugs, but excludes resistance to Rifampin (RIF). Resistance may be found at initial or final testing.

Prepared by: North Carolina Tuberculosis Control Program

Data Source: North Carolina Electronic Disease Surveillance System (NC EDSS), data as of March 13, 2023.

Report Date: March 17, 2023
